In the event the award is not accepted by the deadline identified in Article 8 or is turned down before the research activities commence, the grant will be awarded to the next-ranking candidate in the classification order.

Article 8

Start Date and Activities and Obligations of the Grant Recipient

The successful applicant will be given notice of the manner in which his or her contract must be signed. He or she must sign the agreement within the essential term of fifteen days after receipt of the above notice, on pain of cancellation.

The grant recipient will conduct his or her research activities based on the previously-presented research project. The Departmental Board identifies a tenured professor or a university researcher responsible (supervisor) for the activity and determines the activities for the project at the time the grant is awarded, as proposed by the supervisor.

With the exception of the cases listed in the final paragraph of Article 9, the research activities associated with this grant must commence, without any possibility of postponement and under penalty of cancellation, on the first day of the month following that in which the agreement is signed. Commencement of research activities must be documented in a declaration issued by the Head of the Department at which the research takes place.

Subject to approval by the Head of the Department, the research activities may be carried out abroad at a foreign university or research institution for a maximum of six months in any one year. Said foreign university or research institution will issue express certification, provided that it is in line with the research activities to be carried out.

The grant holder may undertake missions in the context of the research programme.

On the suggestion of the Head of Research, and with the approval of the Departmental Council, the grant holder may be given limited subsidiary or supplementary teaching assignments in the academic courses; said assignments may not, however, compromise the research activities.

Said teaching tasks may not exceed a maximum of 50 hours in each academic year, and will be carried out in the form of teaching assistance, exercises, and seminars.

This teaching collaboration is not compulsory, must not have any effect on University of Naples Federico II's budget, and will not lead to any entitlement to a permanent post at an Italian university.

At the end of the grant period, the grant holder will present a detailed final report on the activities carried out for evaluation by the assessment committee established pursuant to Article 5, paragraph 1 of Law no. 370 of 19 October 1999.

The award of a research grant does not constitute an employment relationship in any manner, and will not give rise to any right of access to a permanent post at the University.

Article 9

Non-Accumulation; Incompatibility; Leave and Interruptions

The grant may not be held at the same time as any other study grant of any kind, except for those awarded by national or international institutions that supplement the research activities of the grant holder through a period spent abroad.

The grant is personal. On pain of cancellation, beneficiaries may not combine it with income from professional activities or work performed on a full-time basis, except as set forth in Article 6, paragraph 4 of the Regulations Governing the Award of Grants for Research Activities.

Simultaneous enrolment on degree courses, specialized or master's degrees, PhD courses with access to grants, or medical specializations, in Italy and abroad, are not compatible with access to the grants.

Grants may be provided to personnel working in the Public Administration, provided that they are placed on unpaid leave for the duration of the grant.

The research activities will be suspended during obligatory leave for duly-established maternity and sickness, provided that the entire period of the grant cannot be reduced due to the above-mentioned suspensions. A total justified leave of absence of less than thirty days in any one year will not be considered to be a suspension, and therefore will not have to be recovered.

Article 10

Automatic Termination of the Contract

In addition to the cases identified in Articles 8 and 9 of this notice, the contract will be automatically terminated with regard to persons who interrupt their activities without good cause or who are liable for serious breaches, where said termination is proposed by the Head of Research and approved by the relevant Departmental Board.

Article 11

Payments; Tax and Social Security Treatment

The grant will be paid net of charges due by the grant holder in equal monthly instalments paid in arrears, except in the event of interruptions to the activities. Performance of the research activities in a regular and fruitful manner must be documented in a statement issued by the Head of the Department or Research Centre every four months.

On tax matters, the provisions of Article 4 of Law no. 476 of 13 August 1984 will apply to this notice. As regards social security, Article 2, paragraph 26 et seq. of Law no. 335 of 8 August 1995, as amended, will apply. With regard to compulsory maternity leave, the provisions of Ministry of Labour and Social Welfare Decree dated 12 July 2007, as published in Official Journal no. 247 of 23 October 2007, will apply. For sick leave, Article 1, paragraph 788 of Law no. 296 of 27 December 2006, as amended, will apply. During compulsory maternity leave, the allowance paid by INPS (the Italian National Social Security Institute) pursuant to Article 5 of the above-mentioned decree of 12 July 2007 will be supplemented by the University up to the total amount of the grant.

The University will provide the grant holder with insurance coverage against accidents and third party liability in the context of the performance of his or her research activities.
